MEDICAL.

NEW LIGHT.

THE great amount of human suffering, with the unerring cure of the power and effect of the

Tincture and Ointment,

Has ever moved me with resolution to show their unspeakable excellence in cases which have never found relief before, either in Europe, America or the World; in fact to every quarter of the globe, and that too in cases of claims perfected by the ravages of this city. And, although encountering against such immense odds in numbers, with every name of opprobrium known to the English tongue, in order to obtain their utter disuse, as well as my personal standing, still they live and are gradually, steadily, and through their miraculous virtues, winning their way to imperishable fame.

I have said, and feel warranted by its cures in stating, that it restores from the different affections of the eye health and light in perfect usage parents. It restores curved spine in its most deformed and distressing condition. Whether recent, of short duration, or of different or to what extent of object deformity the limbs may have been rendered by its ravages. They cure all female diseases in either young or old females. In addition to these, I can say, it has proved an infallible healing virtue, that I will administer them in the following cases, on the principle of no cure no pay:—Inward Rupture, Fistula, Piles, Fever Sores, Scrofula, Salt Rheum, Asthma, Cancer, and Worts, and to all cases will restore a healthy stomach and active liver—without these the system is always diseased.

fe28 JESSE HAMPTON.

THE ENGLISH HORSE LINIMENT

HAS powerful remedial properties for the following among many other diseases of both man and beast: Scald Head, Itch, Scrofulous Sores, Spraine, Ring Worm, Salt Rheum, Tetter, Old Sores, Mango, Frosted Feet, Piles, Fistula, Swinny, Poleevil, Scratches, &c. Examine pamphlet around each bottle for directions and certificates. The following is from one of the oldest and most respectable physicians, of fifty years' practice:

"DR. BETTISON: I have examined your recipe for the English Horse Liniment, and must say it is a most valuable article, and well suited for the purposes intended.
(Signed) "WM. COCHRAN, M. D."

☞ Manufactured wholesale and retail at the corner of Seventh and Market streets, Louisville, Ky., and sold by most of the druggists. Price 25c per bottle.

PROPOSITION TO PUBLISHERS OF NEWSPAPERS.

Any paper in the United States publishing one or more of these certificates to the amount of twelve dollars, and forwarding to me the numbers containing the same, will be entitled to six dozen of the liniment, to be delivered to his agent in Louisville. The publishers will, of course, add to such certificate and notice my place of manufacture, and price per bottle, which can be found above.

THOMAS M. OLIVER,
Merchant Tailor,
Successor to Oliver & Tipton, No. 479 Main street,
LOUISVILLE, KY.

I AM now receiving and opening a very choice and elegant stock of goods, purchased by myself in West Bank, of the latest importations consisting of Cloths, Cassimeres, and Vestings of every color and variety, and of the most superior quality. I have on hand Plushes, Silks and Velvets, both for matrimonial and every-day Sunday-go-to-meeting purposes, that it would do your very heart good to look at much less to wear; and, as for Cloths—such Cloths and Cassimeres! those who word the same styles during the palmy days of Mechrah & Smith will be ready to appreciate them, and those that did not, will learn by trying 479. In short, without imbuding to dispare to say one in my line of business, I will say that I have on hand as perfect a stock of goods as were ever offered for sale in the city of Louisville.

I have secured the services of Geo. L. Gould, late of Cincinnati, and for a number of years, as my cutter and very many of the old customers of Oliver & Tipton, as well as my friends and patrons, that he has no superior as a cutter in the United States. W. J. Gaskell has charge of the pantaloons department, and in that capacity cannot be excelled. All, therefore, who patronise my establishment may rely upon not only getting superior goods, but having them cut and made in the most fashionable and elegant style.

I have spared neither expense nor pains to render my establishment complete in all its parts. Thankful for favors already bestowed, I will assiduously endeavor to merit a continuance of them.

WIG MANUFACTORY.

No. 85 Fourth Street, bet. Main and Market,
(THE OLDEST STAND IN LOUISVILLE.)

MRS. G. NICHOLAS invites the attention of her old customers and others to her newly-invented VENETIAN DIAMOND Wigs. These Wigs were invented by Richard Beach, of London, and made by one of the gentlemen in my establishment, who took the highest premium for the best Wigs on exhibition at the Industrial Exhibition, London, in 1851. They are warranted not to shrink at all, by place, they are so close a resemblance to nature as to defy detection—and to enable gentlemen to wear the office, if they prefer it. Kept on hand for inspection, any of which, if approved of, saves the purchaser both time and trouble, as these elegant specimens of Wigs cannot be found elsewhere. Also, a splendid assortment of Ladies' Wigs and Half Wigs, Braids and Curls, always on hand and made to order at the shortest notice. Brushes, Perfumery, Gloves, and a general assortment of fancy Goods, of the very latest importations.

P. S. Ladies will please remember that they can have their hair dressed at their own residences.

The Experience of an Old Line Whig—Reflections and Consolations

Well, my party is disbanded and gone—the glorious Whig party; the hope of the country; the party of Clay and Webster! It's grievous. The Central Committee has been advertised for, and *non est inventus*. The organ tre cut of business, and my old friends talk in a strange fashion—not used to such verbiage. Whig principles are to be bottled up, and set away on the shelf for use hereafter. They'll spoil for lack of use; not being, perhaps, in the best order when corked up, and in villainously bad keeping. I have worn crape thirty days, in the anguish of disappoin ment; but perhaps it's all right. Great was Whiggery, but unfortunate after all. When we elected Presidents they died. Well, we did not elect Scott, or the old soldier would not be living now, to enjoy the bounty of his country, and the title of Lieutenant General. We knew too much, and as extremes meet, we are given over bodily to the Know Nothings, and allowed the poor consolation of watching that bottle set away, with Whig principles corked up, for use at some future day.

Where shall I go. Anywhere but to that bourne where my unfortunate Whig brethren have been taken in and done for. *Exit* Whig, in mourning.

Trouble among the Know Nothings.

The recent convention of Know Nothings in the Ashland District, nominated James F. Robinson, of Scott, as their candidate for Congress. This nomination has caused much dissatisfaction, and there will probably be two American candidates in the field. S. F. J. Trabue was the first choice of the convention, but not being a member of the order, and unwilling to join it, he was ruthlessly thrown aside, and Robinson nominated. Trabue claims to have been an advocate of Native Americanism when most of the Know Nothings were either openly opposed to the principle or yielding it but a reluctant support. He was willing to make the race openly, fearlessly—but he was unwilling to be the tool of an irresponsible, secret political organization. He will, it is said, be an independent candidate. This result, though suicidal to the new party, was not altogether unexpected, Mr. Trabue having no great admiration for Mr. Crittenden, but being openly in favor of Garrett Davie, for the Presidency. Hence, the Frankfort clique the track.

☞ To-day the meeting is to be held at Jeffersontown, to take action in reference to the conduct of some people in Cincinnati, who robbed the Rev. Mr. Dennison of a servant girl. We have come upon strange times of late. A slave holder can't take a servant with him into any free State, but he is set upon by a mob, and wrested of his property, or it is taken from him under color of law.

We hope there will a full attendance at Jeffersontown, and that something judicious and practical will be suggested and acted upon. The conduct of Ohio is incompatible with the harmony that ought to exist between Ohio and Kentucky. She may plead State rights, but if a State does all the evil she has a constitutional right to do, there can be little hope of the Union. There is something owed to good neighborhood, outside of literal constitutional obligations. Retaliation will sooner or later pass over the repetition of such acts, and the worst consequences are to be apprehended. Let our actions be temperate, but firm. Ask nothing that is not right, but resist the wrong without compromising.

The State Temperance Convntion.

This body assembled in Lexington on Monday last. The attendance was small, and it seems that the whole proceeding was a mere ratification of the doings of the Know Nothing convention in this city. Mr. Hardy was publicly renominated for the office of Lieutenant Governor, whilst Mr Loving was secretly recommended for the office Governor. Thus the Temperance party has sold itself to the Know Nothings. This was anticipated, compassed, as the convention was, of too many political tricksters and wire workers to permit them to sacrifice the success of the Know Nothing nominees to the cause of temperance. So ends the doings of the Temperance party. It remains to be seen whether, as a party, they will support the Know Nothing candidates. Temperance in itself is a good thing, but combined with Know Nothingism it can't be swallowed. The people will not tolerate such an unhallowed coalition.

☞ The anti-Know Nothing Democrats are earnestly inviting Whigs into their ranks.

Louisville Journal.

We have not observed this earnestness, and, in fact, there is no need of it. The Whigs who have not gone to the Know Nothings are generally of the inflexible sort, who do their own thinking, and act accordingly. Invitations would not be much heeded. Let them do as seems good in their eyes. Such men will not vote the Know Nothing ticket. Some of them, perhaps, may not vote at all; but they see how the land lies, and need no exhortations. We guess, however, that upon sober reflection most of them will come to the conclusion that they have been in the wrong crowd for some time—that the Democratic party is the party of the country, after all.

☞ The editor of the Louisville Journal denies that he fulminates anathemas against the Pope and Popery. Why doesn't he do it? He is the organ of a party that has a right to expect it of him; or has he got a dispensation, owing to his unfortunate position three years ago? It is reported that, in Louisiana, the anti-Catholic part of the Know Nothing creed has been dispensed with. There are too many Catholics in that State to allow a proscription that is very popular in other States.

We see that the Elizabethtown Intelligencer, a Know Nothing organ of the Fifth Congressional District, is also very discreet on this anti-Catholic feature of its party. There are a good many Catholic voters in the district, hence the policy.

If the Catholics only had a majority, those organs would all be ranting in behalf of Catholics, as they were in 1852.

☞ According to the New York Express, the following are the questions now most agitating the public mind in the city of New York:

Where are the spoons that were missing, after the Legislative frolic, on Blackwell's Island?

Was Henry Clay's funeral pall made into dress coats for some of the city police? If so—for whom?

Where was Matsell born? Or was he born at all?

What are we to do for milk when the Maine Law cuts off the distillery shop?

What is the *pro rata* distribution of the gambler's fund to force through the Police Bill at Albany? Or has there been any distribution yet?

[POST OFFICE.

LAURENCE.

MESSRS. EDITORS:—Knowing the deep interest that is felt all over the Union, in the result of the election, held in this territory, on the 21st ult., I send you a few remarks for insertion in your own of yesterday.

On the 28th of March, a large train of wagons and horses entered this place, from Missouri, led by a Colonel Young, as chief, assisted by a Dr. Moss, and several others. They encamped about a quarter of a mile west of the town; and during the next day, 29th, were reinforced by several smaller parties, amounting in the aggregate to near a thousand men. They made no secret of their intentions. They came to vote, and so announced on all occasions. The leaders were evidently men of great influence with those under their orders, else they could never have restrained such a disorderly and irresponsible crew of blackguards and ruffians. Whisky in any quantity they had on hand, and were not sparing in its use, as was evidenced by the whoopings and yellings that incessantly rose from their camps. The leaders mixed freely with the citizens, and assured them no harm should be done to either person or property, so long as they were not molested.

At the opening of the polls, Col. Young was the first man to present himself. He made oath that he was a resident of the territory; and declared that he could not again vote in Missouri until he had resided there one year. Two of the judges of election declared the vote legal, and the other rejected it was not. Being an anti-slavery man, he resigned, and a pro-slavery man was appointed in his stead. The balance of the Missourians followed in the wake of their chief, and until four o'clock in the afternoon the anti-slavery men, or abolitionists, as they are universally termed by the Missourians, had a very slim chance for exercising the right of franchise.

One or two of the incidents occurred in the morning. Mr. Charles Stearns, a correspondent of the New York Tribune, and withal a very modest gentleman, made his appearance at the polls with note-book and pen, and proceeded to take down every remark made by any one holding pro-slavery sentiments. He soon, by this course, excited a feeling of hostility, and it was not long before he received peremptory orders to leave the ground. To this request, he did not pay such speedy heed as those issuing the orders deemed he should, whereupon they proposed to accelerate his haste by the application of a little gunpowder in connection with a small quantity of lead. Mr. S not being at all partial to the "villainous saltpetre," took precipitate measures to secure a safe exit. When last seen he was taking a due west course at a 2:40 pace. This supposition is that he will not bring up before reaching Fort Risley, under the protection of the guns of which he will no doubt place himself.

Mr. Edwin Bonds, a prominent member of the Laurence Association, and addicted somewhat to the "manly art of self-defence," or, in other words, a regular "bruiser," from the classic precincts of a Boston engine house, presented himself rather offensively at the polls, when he was forthwith set upon by the whole Missouri delegation. He ran for his life; jumped down a bank some twenty feet high, and was not again seen for twenty-four hours.

During the day, various reports were in circulation concerning what the Missourians intended doing. Among others, that the "Herald of Freedom" office was to be torn down, and the material destroyed. Measures were taken by the citizens to give them a warm reception, in case anything of a violent character should be attempted; but the night passed off quietly, and in the morning the imported sovereigns took their departure.

There was considerable trepidation among some of the most prominent Free-soilers in regard to the ultimate intentions of the invaders. They felt themselves mainly the cause of the demonstration on the part of the Missourians, and could not feel sure they would escape being called upon to render a personal account for their transgressions against pro-slavery. The editor of the organ of the N. E. Aid Company was particularly impressed with the danger of his position. Being constitutionally a non-resident, he found great difficulty in effecting a compromise with his principles of such a nature as to allow him to make resistance in case of an assault. But after being severely exercised in spirit; he came to the conclusion that so prominent a man as himself should set an example of courage to those of smaller calibre. He therefore provided himself with four revolvers, two over his shoulder, he fearlessly took up his line of march for the polls. Discretion or valor, "do or die" was deeply imprinted upon every feature. When he arrived within about two hundred yards of the place where the sovereign right of a freeman was to be exercised, he was met by a party of his friends, who, by dint of persuasion, and, I doubt not, of force, finally induced him to forego his desperate purpose to a more fitting opportunity. He returned, grounded his arms, and in the evening again accosted himself to the desperate adventure, and, I believe, success fully deposited his vote. The editor deserves, as he will no doubt receive, great credit for the courage displayed on the occasion.

The pro-slavery vote cast here amounted to 783. The whole ticket is elected. Two of the successful candidates will do no credit to any party. One has no palate, and the other has never given any indication of having any brains. The election, I doubt not, will be contested.

As I write, some hundred or more of our citizens are being drilled preparatory to repelling an anticipated invasion from the Missourians to-night. A letter addressed to the editor of the Herald of Freedom was brought by express about 2 o'clock to-day, stating that the writer had received reliable information that the Missourians contemplated returning to this place to-night for the purpose of destroying the above mentioned printing office, and hanging some of the most prominent citizens, in case of resistance. The whole town has been in a state of excitement ever since. Meetings have been held, and plans devised for the protection of person and property. As this is the first day of April, I am inclined to the opinion that the letter is nothing more nor less than a practical joke on the part of some mischievous individual or individuals, who knew the particular state of feeling existing here at this time.

Yours, &c.,
OBSERVER.

[For the Louisville Democrat.]

WHEREAS, Some of our citizens being dissatisfied with the action of the City Council in affirming and ratifying the subscription of $200,000 to the capital stock of the Fort Wayne and Southern Railroad company, and the issuing of bonds of the city in payment of the same: And whereas, The approval of the action of the Council, on Saturday night last, has not been deemed by them as a full expression of a majority of the voters of the city; and they have, therefore, drawn up and signed a remonstrance to the Council against the city ratifying said subscription, and issue of bonds.

Resolved, That due notice having been given of this meeting through the public press and by posters, an expression of this meeting, in favor of affirming or disaffirming the action of the City Council, shall be deemed as the voice of a majority of the legal voters of the city.

Resolved, That it has ever been deemed a more fair test of any question to have it fully and freely discussed in public assemblies of the people, rather than merely to obtain an expression through means of a remonstrance, where but an *ex parte* statement is made—many readily sign-le such remonstrance without understanding the real question at issue, or the effect their signatures to the same may have.

Resolved, That as high minded, honorable citizens, we feel it a duty incumbent upon us to affirm and ratify the subscription to the capital stock of the Fort Wayne and Southern Railroad, made by the Common Council, upon the written petition of three fourths of the legal voters of the city, under the impression they had the authority under the 56th section of their charter so to do.

Resolved, That we most heartily and cordially approve the action of the Common Council in ratifying and affirming the subscription of the city to the capital stock of the Fort Wayne and Southern Railroad company, under the authority granted to them by a recent act of the Legislature.

☞ A western village having passed an ordinance forbidding taverns to sell liquor on the Sabbath day to any persons except travelers, the next Sunday every man in town was seen walking around with a valise in one hand and two saddle bags in the other.

☞ A light mulatto married woman is giving private rehearsals in Philadelphia, previous to her appearance in public, as a reader of the poets, *a la* Fanny Kemble Butler, Miss Kimberly and others. The papers say she evidently possesses some ability.

TRINITY CHURCH PROPERTY, NEW YORK.—The Supreme Court gave a decision in the case of Kiersted against the people, etc., and the Rector of Trinity Church, in which plaintiff, as a descendant of Annette Janz, claims for himself and co-heirs the immense real state held as the property of that church. The decision is in favor of the defendants, on the ground, that the State cannot be sued in its own tribunals by a private individual.

DEMOCRATIC VICTORY IN SPRINGFIELD, ILL.—Among the cities in which the Know Nothings have lately been defeated was Springfield, the Capital of Illinois. Although they elected their Mayor by a combination with the temperance men, yet on the balance of the ticket they were beaten, as well as in the Common Council, to control which was the object of the struggle.

MONDAY, APRIL 16, 1855

☞ The alarm of fire yesterday was false.

☞ Sundry sable individuals, having been converted, were baptised in the river yesterday.

☞ The population of Geelong, in Australia, in 1841, was 464; in 1851 it was 20,000.

☞ The particular attention of steamboatmen is directed to the advertisement in another column, headed, "To Steamboats."

☞ The total number of applicants under the new bounty land act, up to this time, is said to be 50,000.

SCIENTIFIC LECTURE.—The lecture to be delivered by Prof. Smith this evening will be on the subjects of carbonic oxide, illuminating gas, gun-powder and gun cotton.

☞ All transient advertisements in THE DEMOCRAT must be paid for INVARIABLY IN ADVANCE. This is a rule that hereafter will be strictly adhered to.

☞ The residence and dry goods store of James Richardson, near Hanging Rock, Lincoln county, was destroyed by fire on Monday. Loss considerable.

YANKEE "NOTICE TO QUIT."—In Maine the legal voters of one of the towns requested an unpopular lawyer to leave the place at his earliest convenience. Go it Blackwell!

☞ Mr. Hooper, the paying teller of the Merchants' Bank in Boston, had his life insured for $10,000, which his family cannot receive, as suicide vitiates the policy.

☞ The soap houses in Boston have been closed for the season, after having distributed 17,477 gallons of soap, which cost nearly eight cents per gallon.

A LADY APPOINTED.—A Mrs. Lydia Smith has been appointed assistant keeper of the light house at Manitou Island, Michigan, at $250 per annum.

☞ The market-house between Shelby and Campbell streets was broke into by some adroit rogue on Friday night last, and he helped himself to six or eight hams.

☞ Some of the know nothing editors about the country were highly, perhaps dangerously, excited over the victory in Louisville at the late election. Their friends should look after them, or they will do something rash.

☞ The Board of Aldermen, at the late meeting, reconsidered the reference of the Mayor's veto message, and passed the resolution declaring J. Barbee elected Mayor. How will they proceed now?

☞ There will be a meeting of the anti-know nothings at Cris. Myers, corner of Green and Shelby, on Tuesday night next, to nominate suitable candidates for magistrates and constable for the district.

☞ Real Estate, damaged Merchandize, and an entire stock of Groceries and Mackerel at auction. See the special auction notice of our friends, Messrs. S. G. Henry & Co., this morning in the auction column, and look out for bargains.

☞ We call especial attention to the auction sale of I. Grauman, under the appropriate head. The stock of goods offered for sale are new and fashionable, and bargains may be obtained. See advertisement.

☞ The Legislature of Washington Territory has passed a prohibitory liquor bill, which is to be submitted to the vote of the people, for their approval or rejection, at the next election.

FASTEST THREE MILE RACE YET.—A telegraphic dispatch [illegible] that the Ames Arrow, on Wednesday, three mile heats, at New Orleans, in 5:28 and 5:30¾. The time of each of the heats is the fastest on record.

☞ The attention of the street inspector of the eastern district is called to the fact that the bouldering has begun to give way on Main street, in front of the Bank of Kentucky. It should be repaired immediately before the injury becomes great.

☞ The general orders for a military expedition against the Sioux Indians, and for the protection of the frontiers of Kansas and Nebraska, and emigrants crossing the plains, are published. The expedition is to be under Brigadier Gen Harney.

☞ The negro barber, John A. Hall, who administered chloroform to a gentleman at Dunkirk, and robbed him of a considerable sum of money, and who was arrested at New Orleans last week, came up on the Bella Sheridan, in custody of an officer. He was taken up on the mailboat Saturday.

☞ The negro barber Hall who administered chloroform to Mr. Tidd, at Dunkirk, and was afterwards arrested in New Orleans, is now in jail in this city. We suppose the officers are awaiting a requisition. He is a precious scamp from all accounts. A southern plantation and a tight overseer would work wonders in him.

CONVICT EARNED HIS PARDON.—Gov. Johnson of Tennessee, has extended his executive clemency in behalf of Thomas Greig, a convict who signally distinguished himself at the fire which destroyed a portion of the Penitentiary a few days ago. Greig, it is said, worked most heroically, and battled with the flames in such a manner that won the admiration of all present.

HANGING FOR THREE MURDERS.—Green named Willis Hester, having been convicted in Chatham, N. C., of three murders, has been sentenced to be hung on the 4th of May. Such severity has excited the sympathy of the people of the vicinity, who are said to be getting up a petition for his reprieve.

☞ We remind our lady readers that Mr. C. C. Spencer sells out Mr. I. Raphael's stock of fancy and staple Goods this morning at 10 o'clock, at the corner of Main and Seventh streets; also, a large assortment of Velvet Carpets, Brocatel Satin and Lace Curtain Goods. Read the [illegible] great bargains will be had at this [illegible]

[illegible]ISTON.—The Galveston papers announce that the French correspondence from Sebastopol is [illegible]ently submitted, on the steamers carrying the mail to Constantinople, to a strict [illegible]ership, so that nothing may ooze out distasteful to the French nation, or in any way exposing the measures taken by the Emperor, who thus, in every respect, in the smallest details, shows himself a suspicious and accomplished despot.

☞ At the [illegible]election in Princeton, New Jersey, on Monday last, "Sam," the "dark lantern" hero, was defeated by one man with the same fate at the borough election in West Chester, Pennsylvania, on that day. The [illegible] are beginning once more to "know something." It was at Princeton that Washington beat the Hessians; at the same place the true Americans have beaten the enemies of their country.

LEXINGTON AGAINST THE WORLD.—The Lightning informs us that the thorough bred Kentucky horse Lexington, beat Lecompte at New Orleans, on Saturday, in the four mile race. The time as given by telegraph is incorrect. The time is probably seven minutes twenty-three and three quarter seconds. Lecompte was drawn after the first heat, and may have been out of plight. Kentucky is great, and Lexington is decidedly some as a race horse, better even than his sire the renowned Boston.

THE LICENSE QUESTION.—We would like to know how it is that a half dozen coffee houses and taverns obtained license, while very many whose application and money were in the proper place, were rejected. Don't it seem rather exclusive, and isn't it positively unjust? And if coffee house keepers are not to have license isn't it rather digging for the city to keep their money, when it is worth from two per cent up per month, according to a fellow's fix. Let's [illegible] acted on.

RIVER AND WEATHER.

It rained hard on Saturday night, and the river at this point is rising, with 6 feet 11 in the canal.

PITTSBURG, April 13, M.

There is about 3 inches water in the channel and falling. The weather is cloudy and damp.

CINCINNATI, April 13, M.

The river is stationary. The weather is warm with indications of rain.

The fine packet steamer, J. H. Done, leaves for Wheeling this day. She is built expressly for this trade, has the best accommodations for passengers and shippers, and deserves encouragement. Patronize the J. H. Done.

The Jacob Strader is the mail boat for Cincinnati to-day at 11 o'clock. Barker, captain, Bob Dunnine, clerk. *Nuf ced!*

FOR ST. LOUIS.—The low pressure Northerner, commanded by Capt. Fuller, (who isn't dead yet, although Wm. Strader told us so once, and we published it,) leaves for St. Louis to-day, having been detained. The Northerner is an excellent boat, and Fuller wider awake than any man dead or living.

FOR NEW ORLEANS.—The unrivalled steamer Eclipse, Captain Sturgeon, leaves for New Orleans this day. The Eclipse is the finest boat that ever ploughed the Western waters, and her officers are true gentlemen. Travel on that boat, messieurs travellers, if you wish safety, pleasure and all else that makes a man "laugh and grow fat."

There are six feet water on Harpeth Shoals, Cumberland river, on Saturday, and falling.

The St. Louis Intelligencer, of Friday, says the El Paso, recently sunk in Missouri river, will prove a total loss, as she is broken in two. Insured for $5,000.

The St. Louis papers report 10 feet in the channel to Cairo, and 9 feet in the lower Ohio.

We are obliged to the Alvin Adams and Fanny Bullitt for St. Louis and New Orleans papers.

NEW MUSIC.—We are indebted Mr. D. P. Faulds, Main street, between Second and Third, for several pieces of new music, which we can recommend to all who are accustomed to delight themselves with the charms of melody. Among the pieces are "The Orphan," words from the French, by Noble Butler. "The Pet of the Cradle," and "How Sweet are the Roses," by Alice Hawthorne, and the "Few Days Schottisch."

Mr. Faulds has one of the largest establishments, and best stocks of musical instruments and music to be found anywhere in the West. He also publishes very largely himself several of the above named pieces, bearing the stamp of his publication. Those in want of good new music will do well to give him a call and examine his catalogue.

☞ Let any candid person take the trouble to examine the mass of testimony from all parts of the country in favor of Dr. Coghagan's Hydropiper, and they must confess that notwithstanding the conclusive evidence which has been published, the half has not been told, and that no other preparation can show a tithe of the evidence which can be adduced in behalf of this remarkable medicine. To be used in the spring of the year as a purifier and renovator of the human system. It is an invaluable compound, and one which no family should be without, and more especially where any disease exists. The principal office is at Raymond & Putton's, 74 Fourth street.

NIAGARA FALLS.—The great paintings, representing the world's wonder, continue to create more and more enthusiasm. As the audiences increase, the encomiums passed upon the panorama greet one's ears at every turn. The true and beautiful will, when known, attract attention. Mr. Frankenstein's reputation as an artist ought to be a sufficient guaranty of the excellence of his Niagara, for certainly he would not allow his name to be attached to anything of an inferior merit; but people have seen so many panoramas that they are beginning to think that nature cannot be thus represented. Those who have seen this Niagara know to the contrary, and are not backward in telling it; indeed, seeing it so infatuates one that he cannot well think of anything else. We heard a merchant say that his book-keeper had been almost incapable of business since attending the exhibition. Mr. F. tells us that in consequence of the pre-engagement of the hall for concerts, for three nights this week, commencing with Wednesday, there will be afternoon exhibitions on Wednesday, Thursday, and Friday, which we mention for the benefit of those ladies unwilling to come out in the evening, and people residing in the country.

THE TEMPERANCE CONVENTION.—The Lexington Observer gives the following sketch of the proceedings of the State Tampernance Convention, which was in session in that city last week:

The friends of temperance assembled in convention in this city on Wednesday last, in obedience to a call of the State Central Committee, for the purpose of considering what action was necessary on their part by reason of the declination of the candidacy for Governor by Major George W. Williams. The convention was very respectably attended, and among those who took part in the proceedings we observed several of the most prominent gentlemen of the Order in the State. Judge Robertson presided over its deliberations, and able addresses as to the duty of the friends of the temperance cause, in the posture of affairs in which they find themselves placed, were made by Dr. R. J. Breckenridge and Prof. W. M. Scott, of Boyle; Major George W. Williams, of Bourbon; Rev. Mr. Lee, of Harrison; Rev. Mr. Owen, of Madison; T. B. Posey, of Henry; Edward Oldham, Rev. S. L. Adams, Samuel Shy, and Judge B. F. Graves, of Fayette; Dr. L. L. Pinkerton, of Woodford, and others.

The convention reaffirmed the nomination of James G. Hardy for the office of Lieutenant Governor, but resolved that it was inexpedient to make any further nomination for Governor, leaving the friends of temperance to select from the candidates before them the one who shall be believed to be most favorable to their cause. They also passed a resolution to endeavor to secure a majority of the members of the Legislature pledged to a prohibitory law. The following were the resolutions adopted by the convention:

Whereas, a convention of the friends of temperance, held in Louisville in December last, having nominated George W. Williams for Governor and James G. Hardy for Lieutenant Governor of this Commonwealth, and Mr. Williams having, for satisfactory reasons, declined the nomination, and Mr. Hardy, for the like reasons, having re-submitted himself to this convention, and requested the call of the Christian heretofore made by them for Lieutenant Governor at the August election.

Resolved, That it is inexpedient to make any further nomination for Governor, and recommend to the friends of temperance, to vote, from the candidates before them, for whom they shall believe to be most favorable to their principles

Resolved, That [illegible] friends of every county in this State be requested to secure [illegible] of enacting a

POLICE COURT.

HONORABLE GEO. W. JOHNSTON, JUDGE.

APRIL 14.

Allen Damara, aiding Ben and Jake, slaves of James S. Lewis of Shelby, to escape from their master. The prosecution proved that the negroes came to Mr. Oller's to obtain lodging on Sunday night, and that Damara was sitting at the time in front of the door on a barrel. He had just come to town. He told Mr. Oller he did not know the negroes, but he afterwards sent word to Mr. Lewis that his negroes were in town. The case was continued for two weeks to enable accused to introduce testimony.

Comb'h by Philip David vs Thomas Selvage, p w; dismissed.

An ordinance warrant against Gen. Pilcher was heard and suspended.

A jury was empannelled on a case of lunacy.

BOARD OF COMMON COUNCILMEN

FRIDAY, April 13, 7 o'clock P. M.

[illegible] to wit:

First Ward—Messrs. G. W. Dunlap, and Wm. G. Rosser.

Second Ward—J. Zeller, and J. P. Gaillbreath.

Third Ward—R. S. Pope, and P. R. Holbrook.

Fourth Ward—Thos. Shanks, and I. B. Bell.

Fifth Ward—J. W. Riley, and W. J. Weaver.

Sixth Ward—T. S. Hayden, and J. A. Giltz.

Seventh Ward—D. S. Beatty, and Robert Vaughn.

Eighth Ward—C. D. Pennebaker, and N. H. Plummer.

Thos. W. Riley was nominated and duly elected president of the Board.

John V. Varnum, Ben R. Pollard, Wm. J. Johnston, T. B. Prescott, and ——— Slater, were severally put in nomination for the office of clerk, when John V Varnum, was duly elected on the first ballot, J. Kirkpatrick, was elected sergeant at arms.

Mr. Reynal obtained leave of absence.

Mr. Pennebaker and Dunlap, were appointed a committee to inform the Board of Aldermen that this board was duly organised and ready to proceed to business, who after performing the duty assigned them were discharged.

Messrs. Shanks and Beaty, were appointed a committee, to wait upon His Honor the Mayor, and ascertain if he has any communication to send in, who after performing the duty assigned them, returned and reported that his Honor had nothing to communicate at the present session.

Messrs. Pennebaker, Reasor and Raphael, were appointed a committee, to draft rules for the government of the board.

When, upon motion of Mr Pennebaker, from said committee, the rules of the last Council were adopted until the next session.

Alderman Kaye and Douglass now appeared and stated that the Board of Aldermen were duly organised and ready to proceed to business.

A message from his Honor, Mayor Speed returning a resolution passed at the last session of the old Council, authorising certificates of election to be issued to Jos. Barbee, and other officers elect, was read in the accompanying reports, with his objections to the passage of same was read, together with the report and resolution when Mr. Reasor, moved to that portion referring to giving John Barbee, a certificate of his election as Mayor, to a select committee, which was lost.

The vote being then taken upon the passage of the resolution, it was adopted, the Mayor's objections to the contrary notwithstanding, by the following vote, to wit:

Ayes—President Ripley, Messrs. Zeigler, Gailbreath, Shanks, Weaver, Gilliss, Hayden Vaughn, Beatty, Pennebaker, Plummer, and Holbrook—12.

Nays—Messrs. Dunlap, Reasor, and Pope—3.

A resolution from the Board of Aldermen to go into joint session at 8 o'clock on Wednesday evening next for the purpose of electing a wharf master and other officers as specified in the charter, was read and adopted.

A resolution from the same to adjourn to meet again on Wednesday, April 18, at 7 o'clock P. M., was adopted.

Mr. Pennebaker presented from H. H. Higdon stating that he would not be responsible for any damage done to the work on Main, between Eleventh and Twelfth street, by the railroad company, which was read and laid on the table until the next session.

A message from his Honor, Mayor Speed, returning an ordinance to grade and pave the side walks on Elevenths, from Broadway to York streets, with his objection to the passage of the same, and the vote being then taken upon the passage of the ordinance, the Mayors objections to the contrary notwithstanding, it was rejected by a unanimous vote.

The Council then adjourned to meet again on Wednesday, April 18, at 7½ o'clock, P. M.

JOHN V. VARNUM, Cl'k.

PROVISIONS AT NEW ORLEANS.—The N. O. Delta of the 5th inst. says:

HOW PRICES.—Within a day or two bacon has advanced in this market half a cent a pound, and pork fully a dollar a barrel, and prices appear to be still looking up. Extra flour has reached the "famine price" of eleven dollars a barrel at wholesale, and corn is selling at the extravagant rate of a dollar and twelve cents a bushel.

BY TELEGRAPH;

BOSTON, April 14.

In the House to day, the address to the Governor to remove Judge Loring was carried by 217 to 111. It now goes to the Senate.

NEW YORK, April 14.

The Erie Railroad Company lost 14 cars by the fire to day, 9 of them were full of dry goods, and the others freight. The building was of but little value. The loss is between $20,000 and $30,000.

BOSTON, April 14.

The ship William Layton was lost at sea on the 27th of February, and the stewardess and two of the crew were drowned; the others were taken off and arrived here to-day.

The America arrived at 11 o'clock this morning.

The Times says, we did not raise our voice against instituting upon a basis which did not include the destruction of Sebastopol, but the conference would ultimately break off. The importance attached to our operations in the Crimea and their result would become a real criterion. There is, however, one further chance for negotiation—though a faint one. It is not altogether impossible that the answer from St. Petersburg may be in the form of some counter project upon which a discussion may be renewed. Do not, however, expect any proposal at this time by the Russian government.

The London Daily News says that according to the most recent communications from Vienna, Lord John Russell was understood to see little or no prospect of peace at present. He expects to return to England by the 14th of April. The opinion is pretty freely expressed that any place now would be precarious.

Letters from Sidney state that a vessel, name unknown, was wrecked at Bampton Shoals, and that 500 Chinese and a portion of the crew were lost; the captain and eight men were only saved, these made for Cape Dounis in a boat, and, on landing, they were attacked by the natives and five of them were killed.

The condition of the allies in the Crimea is represented thus by the official Journal of St. Petersburg:

"The position of the allies are now completely shut in by the enclosure of a formidable entrenchment. New divisions have the enemy."

Grave events are expected.

The trade of Australia has improved. Politically, matters are unchanged.

NEW ORLEANS, April 14.

The Lexington won the race easily. The time was seven twenty-three and three-fourths.

The Lecomte was withdrawn after the first heat.

NEW YORK, April 13.

Dennis Renault was arrested to-day for smuggling diamonds.

The Halifax Journal of the 9th reports the arrival of sixty more men from Boston. They were induced to go under the supposition that they were wanted to work on the railroad, but, finding out their mistake, they all refused to enlist. Finally, arrangements were made to give them all work.

THIS week, FRANKENSTEIN'S GREAT SERIES

IMPROVED

Lightning-Rods!

W..t solid Silver-Plated Points, Gold Tipped.

I WOULD respectfully inform the public that I continue manufacturing my *improved Lightning Rods, with solid silver plated angular points, gold tipped.* These points are superior to any that have been brought before the public for their attractive qualities. Those buying to sell, and the trade, can be accommodated by me as cheap as any Rod that is manufactured, and get a better article.

Persons buying at a distance, and ordering Rods to put up themselves, will get printed directions, so that they can be put up with little trouble, as the Rods are all of a proper length, and fit apparently.

As there are persons putting up Rods and representing them to be of my make, and so on, I would request each person so wishing a good article to ask for "SMITH'S SOLID SILVER-PLATE ANGULAR POINTS, GOLD TIPPED."

Just Published—A New Discovery in Medicine.

A FEW words on the rational treatment, without medicine, of Spermatorrhœa or Local Weakness, Sexual Debility, Impotency, Low Spirits, Leanness, Weakness of the Limbs and Back, Indisposition and Incapacity for Study and Labor, Dullness of Apprehension, Loss of Memory, Aversion to Society, Love of Solitude, Timidity, Self-Distrust, Dizziness, Head-Ache, Involuntary Discharges, Pains in the Side, Affection of the Eyes, Pimples on the Face, Sexual and other Infirmities, the Result of Indiscretion in Early Life.

The startling fact, that these alarming complaints may easily be removed WITHOUT MEDICINE, is, in this small tract, clearly demonstrated; and the calmly new and highly successful treatment as adopted by the author, fully explained, by means of which every one is enabled to *cure himself perfectly and at the least possible cost*, voiding, thereby, all the advertised nostrums of the day.

PETERS, CRAGG & CO'S.
PIANO FORTE FACTORY,
Main street, between 13th and 14th.

THE subscriber begs leave to call the attention of dealers, professors and others, wishing to purchase Piano Fortes, to the extensive manufactory of their improved circular scale full iron frame instruments, now on hand, and ready for finishing. By the erection of a large additional factory building, they are prepared, should the wants of the trade demand it, to turn out seven instruments per week, or 360 Pianos per annum.

Buyers may rely upon our Instruments full; equal, in all the requisites of a good Piano, to any made in the United States, and at a saving of from twenty-five to fifty dollars on each instrument. All the wood used in our manufactory is thoroughly seasoned, and no pains or expense are spared in turning out each Piano, perfect in every respect.

For two consecutive years the Agricultural Association and Mechanics' Institute have awarded first premiums to those Pianos over all others, when in competition.

Reference is made to the following dealers and the profession generally.

HEIRS OF OFFICER AND SOLDIERS
—OF THE—
REVOLUTIONARY AND OTHER WARS.

J. S. GALLAHER, (Formerly 3d Aud. U. S. Treas'y.)
—AND—
JNO. H. GALLAHER, (Attorney of Claimants.)
TODD'S MARBLE BUILDING,
WASHINGTON CITY,

CONTINUE to give their usual prompt attention to the prosecution of every description of claims against the General Government. Their familiarity with the general routine of business connected with the several departments, and the experience they have had in the management of the large number of cases heretofore entrusted to their care, warrants them in tendering their services, with renewed confidence, to the very numerous representatives of officers and soldiers of the revolutionary and other wars, and to the widows and children of such, in congress, to commutation, half-pay, pension, or bounty land.

In addition to their experience, they possess much valuable record and documentary evidence appertaining to the numerous classes of claims.

☞ Army officers, soldiers, seamen, naval officers, seamen, and navy claims, (or their surviving widows or minor children,) who served in the Revolutionary War, War of 1812, Florida, or any of the Indian Wars, for a period of not less than fourteen days, are now entitled to a land warrant for 160 acres. Those who have already received their 40 or 80 acre warrants, are now entitled to an additional quantity to make the whole equal to 160 acres.

Persons may now locate warrants in 80 acre warrant, $5; 120 acres, $8; 160 acres, $10.

☞ Regular correspondents who prepare cases and forward them to them in the above address, for management here, will be dealt with literally.

☞ A court of claims having been created by Congress, before which all private claims, not heretofore presented to Congress, may be presented for adjudication, the undersigned will undertake the management of any cases requiring attention before the court, and devote their best energies to the interests of their clients. They will be glad to see in advance, who do they make any charge for their services (except where previously agreed upon) unless they are successful in obtaining something for those who employ them. N. B. LAND WARRANTS BOUGHT AND SOLD.—Valley Land Warrants and Revolutionary Scrip at highest market rates, giving generally higher prices than any other merchant can afford, except those immediately in the vicinity of land offices where warrants are located. The advantage of sending warrants to Washington is that discrepancies in assignments, which often occur and produce difficulty, can be rectified, frequently, at the General Land Office.

TO ARCHITECTS AND BUILDERS.

AND all others who design erecting new dwellings, or refornisking old ones, the subscriber would say—

We are now manufacturing, and have constantly on hand, several different patterns of Cast Iron Mantels, of various styles. We have, for the last six months, been getting out our patterns, and perfecting our plans, so that we are now able to offer a better article at as low price as can be had in the East or elsewhere.

We are making Mantels in imitation of the following varieties of Marble:—

Egyptian; Sienna;
Brocatelle; Pyrenese;
Marble; Verde Antiquo and Jasper;

We are also making them plain and black Enameled, and are fully prepared to suit all tastes and circumstances.

The advantages of these imitation Mantels over those of the pure Marble, are—

1st. It cannot absorbthem;
2d. It cannot stain them;
3d. Acids cannot injure them;
4th. They cannot be easily broken or defaced;
5th. If defaced they can be repaired and made as good as new;
6th. They can be sold at about one-third to one-half less cost;
7th. They can be so securely packed as to be transported to any part of the world.

We will warrant to sell a better article than can be bought elsewhere, more highly finished, and at as low price as in any other market in the United States.

Any good Bricklayer can put these Mantels up.

Call and examine for yourselves at the Northwest corner of Third and Main street, Louisville, Ky.

DR. A. J. VANDERSLICE,

LATE PROF. OF THE ECOLE CLINIQUE DE MEDICIS
27 PHARMACIE LA PARIS.

(A Practitioner for twenty-nine years past.)

ANNOUNCES to his friends and the public that he continues to devote his time to the curing of the following diseases, viz: Coughs, Colds, Asthma, Fits Dropsy, Dyspepsia, Liver Complaint, Piles, Fistula, Gout, Rheumatism, Scrofula, White Swelling, Nervous Affections, Fever and Ague, Bilious Complaints, &c.

Dr. Vanderslice has met with great success by his peculiar treatment of disease, where other very eminent physicians have failed to produce a cure. This gives him confidence in his own skill and merit, he will undertake the cure of all patients without charge, excepting the cost of the medicine, requiring no fee until after the restoration of their health.

Diseases of a peculiar character he guarantees to remove radically in a few cases, without offensive or deleterious medicine. He warrants to all, no matter how severe or long standing the disease, an effectual cure, or he requires no pay. Females suffering with irregularities, nervousness, debility, &c., can be permanently relieved by Dr. V.

Invalids in any section of the country, by addressing a letter to him, (post paid,) and enclosing a fee, can have advice and medicines promptly sent them.

☞ Residence on Preston street, between Green and Walnut. Private office on Floyd street, between Market and Jefferson. Office hours from 8 to 12 o'clock, A. M., and from 2 to 6, P. M. je4d&w

PUTNAM'S Monthly, for April, received and for sale by
mr30 F. A. CRUMP,
84 Fourth street, near Market.

Post Office Department,
January 12, 1855.

SEALED PROPOSALS will be received at this department until noon o'clock, p. m., of the 31st day of April next, for furnishing for four years from the first day of July next, in such quantities and at such times as may be required and ordered, the mail bags, and mail bags of the following description, to wit:

Canvas Mail Bags.

Size No. 1. (41 inches in length and 62 inches in circumference,) to be made of cotton canvas, weighing at least 15 ounces to the yard of 32 inches width; the yarn of the fabric to be doubled and twisted, and the bag to be so constructed as to be locked, and to have a handle at each end.

Size No. 2. (41 inches long and 48 inches in circumference,) to be made of the same material, and manner of construction as No. 1.

Proposals for improvements in the construction of any of the above described mail bags, or in the material thereof, are invited; and the relative value and adaptation to the service, as well as price of such improvement, will be considered in determining the lowest and best offer.

No proposal will be considered if not accompanied with samples of each article bid for, showing the construction, quality of materials, and workmanship proposed, and also with evidence of the competency and ability of the bidder to execute the work according to contract.

The specimens must be delivered at the department on or before the 25d day of April next, and will in connection with the proposals, form the basis of the contracts. Specimens deposited by bidders which may with safety and credit in the judgment of the Postmaster, will be paid for at the rates proposed by them.

A decision on the bids will be made on or before the first day of May next, and the bidder or bidders chosen will be required to enter into contract on or before the 15th day of June next, with bond and sufficient sureties for a faithful performance of the obligations entered into.

All the articles contracted for are to be delivered at the contractor's expense, at Boston, Mass.; New York and Buffalo, N. Y.; Philadelphia and Pittsburg, Pa.; Baltimore, Md.; Washington, D. C.; Charleston, S. C.; Augusta, Ga.; Memphis, Tenn.; New Orleans, La.; Nashville, Tenn.; Louisville, Ky.; Cincinnati, Ohio., and St. Louis Mo.; in such quantities and at such times as the department may require; and they are to be rigidly inspected before delivery, and those are to be received which shall be inferior to the specimens or standard bags.

To enable bidders to estimate the number of the different kinds of mail bags which will probably be required, they are informed that there were furnished for the use of the department during the year which ended 30th June last, 2,493 leather pouches; 3,572 canvas pouches; 456 leather horse-mail bags; 6 canvas horse-mail bags; and 17,410 canvas mail bags.

The proposals must be endorsed "Proposals for Mail Bags," and be addressed to the "Postmaster General."

HIGHLY IMPORTANT TO THE PUBLIC

NOTWITHSTANDING the thousands of Spectacles which Mr. SOLOMONS has sold during his sojourn in Louisville, he has received hundreds of applications within the last two weeks for his

Patent Spectacles.

Also, to produce the same, to which he could not possibly accede. But he has sent to his south for a supply, who has kindly consented to remain here for a few days, and those applicants therefore an early call is absolutely necessary.

New Discovery for the Eyes.

SPECTACLES, &c., ground on the exact principle of Special Accuracy, by G. SOLOMONS, the celebrated Optician, from the improved Spectacle Manufactory and London Optical Establishment of the 300, 101 Bond street, London, established more than a century ago.

G. SOLOMONS, the sole patentee of the improved Spectacles, and various improved Glasses, is now on a professional visit to this place, and may be consulted at his office, No. 74 Fourth street, between Main and Market.

He has had the honor of attending the principal towns of the United Kingdom, where he has experienced the most flattering encouragements; and having been earnestly solicited to make a visit for a short time, he has the honour of announcing his arrival from London, with a most splendid assortment of his newly invented and improved Spectacles. Such is the superiority of these glasses, that persons having inflamed or weak eyes, may instantly be relieved by using them, and they possess the property of preserving the prodigious range of sight to the most advanced period of life, while they enable both the old and the young to pursue the most minute employment for any length of time both by day and candle light. As several individuals in the United States have proved their efficacy, he, with confidence, solicits the favor of the public, which he will ever be proud to acknowledge, assuring those who entrust him with their commands, that no exertion shall be wanting on his part to merit their approbation. Added to the advantages possessed by him of long practice of the Eye Infirmaries, and seeder one of the most eminent Occulists, by which he has obtained a thorough knowledge of the diseases of vision, he has in his possession documents from individuals of rank, conveying the highest testimonials of approbation.

He will give reference to persons in the United States, who have found the greatest benefit and comfort from the use of his newly invented and improved Spectacles.

NEW DISCOVERY FOR DEAFNESS.

The *Sound Concentrator* is an extraordinary, powerful, newly invented small instrument, for the cure of extreme cases of deafness, entirely different in make or construction from all others, surpassing everything that has been or probably ever can be produced. They are not modeled to the cavity of the ear, and may be worn within, without projecting, and being of the same color as the skin, are not perceptible. The powers of this valuable invention are so great as to restore deafness hearing of long standing to its perfect and natural state, and to enable deaf persons to join in general conversation to hear most distinctly at a place of worship, at the bar, or any public assembly, the same pleasant sensation of ringing notes in the ear as in clouds remained, and the concentration affords to individuals afflicted with the most dreadful malady all the assistance that can possibly be desired.

Sr. LOUIS, Nov. 14th, 1853.

It gives me pleasure to bear testimony to the value of Mr. Solomons' Glasses. I have been under the necessity of using glasses in reading, especially at night, and I find them far better adapted to my difficulty than any I have tried.

CHAS. W. STEVENS, M. D.,
Professor of Anatomy in the St. Louis University,

PITTSBURG, June 6th, 1853.

I am using a pair of Mr. Solomons' Glasses, and find them very comfortable. I cheerfully add my name to the number of those who recommend them.

JOS. P. GAZZAM, M. D.

NEW YORK, June 4th, 1850.

Having made a trial of Dr. Solomons' Spectacles, and examined the principle on which they are constructed, I have no hesitation in pronouncing them superior to any with which I am acquainted, and accordingly the most cheerfully recommend them to all who need artificial aid in improving their vision.

CHAS. A. LEE, M. D.,
Professor of Pathology and Materia Medica, Geneva, Buffalo and Bowdoin College.

LOUISVILLE, Oct. 23rd, 1854.

Mr. Solomons has furnished me with my first pair of glasses. They appear to answer the purpose very well, and occasion no uneasiness to the eyes when used. The testimony of other medical gentlemen of experience on the matter, is very conclusive in favor of these articles.

JOSH. R. FLINT,
Professor of Glasses, Ky. School of Medicine.

I have medotrial, for a short time, of Mr. Solomons' Glasses, and I am much pleased with them; they render vision very distinct, and appear to fatigue the eyes much less than those I have heretofore used. Those in need of artificial aid in this respect, will do well to call on him.

H. MILLER,
Prof. Obstetrics, University of Louisville.

I have this morning examined Mr. Solomons' Glasses; and having, for the last two years, made diseases of the eye my study, I have no hesitancy in saying to those who need glasses, that they will find them a superior article, well adapted to all ages.

Given under my hand this 23d day of Oct., 1854.

L. YATES, M. D.,
Oculist, Louisville, Ky.

LOUISVILLE, Oct. 23d, 1854.

I have examined Mr. Solomons' Glasses, and as, though I have been using spectacles for the last six years, I find them superior to any I have used so far.

Given under my hand this 23d day of Oct. 1854.

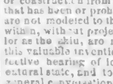
Private Medical Treatise
ON THE
PHYSIOLOGICAL VIEW OF MARRIAGE
BY
M. D. LA CROIX, M. D.,
ALBANY, N. Y.



TWO hundred and fifty pages, and 130 fine plain and colored lithographs and plates. Price only 25 cents. To be sent free of postage to all parts of the Union.

Cheapest book ever published, and containing nearly double the quantity of reading matter in that of the

Fifty-Cent or Dollar Publications.

It treats on the Physiology of Marriage, and the secret infirmities and disorders of youth and maturity, resulting from excesses which overthrow both mind and mental powers, all diseases arising from indiscretion, with plain and simple rules by which all persons can cure themselves without exposure, with the author's observations on marriage, its duties and disqualifications, and their remedies; with colored lithographs, illustrating the anatomy and physiology, and diseases of the reproductive organs in both sexes, their structures, uses, and functions. It contains many important hints to those contemplating matrimony, which will overcome objections against marriage; some, however, should not marry, without first consulting its pages. It treats of all diseases of females, whether married or single. Hints to those who desire no more children. Strangers who require medical aid, before consulting any doctor, ought to know whether their cases are properly understood by those whom they employ, and thus guard against the imposition of quackery, so prevalent in populous cities. Hence the advantage of a popular knowledge of oneself, such as is given in this work.

If medical authorism be the test of talent, and enlightenment be sought from books, the common sense reader will be able immediately to discriminate between truthful simplicity and outrageous spectaculars and bombast. Dr. La Croix is a legally qualified physician, and for the last twenty years has been daily consulted upon the different diseases upon which his book treats, personally as well as by letter. Any person reading 25 cents in a letter, post paid, will receive one copy by mail, free of postage, or five copies for $1. Address DR. M. D. LA CROIX, No. 31 Malden Lane, (P. O. Box 579) Albany, New York.

THE BLIND RESTORED TO SIGHT!
WITHOUT THE USE OF
SURGICAL INSTRUMENTS!!

DR. L. T. UNDERWOOD, OCULIST AND PHYSICIAN, has had the most extraordinary success in the treatment of diseases of the eye—succeeding, beyond even the hope of the most sanguine expectations, in restoring to sight, no only those who had been partially blind from acute and chronic ophthalmia, or inflammation of the eye, but a great number of persons who had been blind for years, and had been abandoned by the most eminent physicians as incurable and blind for life. Among the latter have been those of cataract, amaurosis, staphyloma, gutta serena, &c., some of which have been considered incurable, without the use of a knife or needle.

A number of those patients who have been successfully treated by Dr. Underwood, are residents of this city, while there are a great many in this and adjoining States, whose certificates we will publish from time to time, and to which he begs leave to call attention.

The mode of treatment is in a great measure peculiar to Dr. Underwood, and originated with him. It causes but little pain to the patient, and is free from the danger
